

NEWSLETTER PROCEDURES

- The newsletter will be published 10 days after the regular monthly meeting of the club. All submissions must be received, in word format, no later than 7 days after the regular monthly meeting to allow ample time to layout newsletter.
- Any club member can submit an article for the newsletter; however, time/space/appropriateness constraints may delay or prohibit the publication of the article. Sharing challenges and/or mistakes is as appreciated as success stories so that we can all learn together and hopefully avoid mistakes others have made.
- Photos are always welcome and encouraged – with or without an article – that show club members at work with their bees.
- Sharing newsletter articles, where publication or duplication of them may be involved, should be approved in advance by the Board of Directors
- Bee related cartoons and/or bee related clip art are needed and are appreciated.
- All submissions should be directed to the club's gmail account at www.centralcoastbeekeepers@gmail.com .
- The newsletter will always include a message from the President(s) and a listing of upcoming events of potential interest to members.
- After the first newsletter, which was sent to all members, the following newsletters will only be sent to dues paying members – a group of all members can be found on the clubs gmail account page under contacts – and it will also be placed in a password protected area on the club's webpage and all paid members will be provided that password.
